Hi Cheri,

I'm sorry for the delay in getting back to you, I was off Fri, then we had the holiday on Monday so I'm catching up today on everything. But looking at the document in question, I believe that one is suppose to be for the Ag Label, I think I mistakenly had "Industrial" on the top of the page from cutting and pasting. Please let me know if this helps clarify your question, or if you have any others. I'll be here until 3:30 today, and I'm in the office for the rest of the week as well.

Thanks,
Jennifer

Hi Jennifer,

Thanks so much for sending these updates. I do have one question - when I open the file named 270-372 Bromadiolone Bait Pellets Ag Label, the heading reads Bromadiolone Bait Pellets (Industrial). Can you please clarify. Thanks.

Cheri

Hi Cheryl,

Attached you will find label revisions to be made to your bromadiolone products, 270-372 and 270-373. We have been trying to have edits made prior to stamping so we can provide you with a clean label in the end, and if any questions arise concerning the edits, they can be addressed prior to stamping. So I separated each set of edits to coincide with how the submission came in - one document for each label. Thanks so much for your patience with this, I really appreciate it. Please let me know if you have any questions. And you can just e-mail me the updated labels either in word or pdf form, whichever works easier for you. Oh one thing I noticed is that while a separate label was submitted for the ag individual bait pellets for both products, there was not an individual label submitted for the industrial label. Do you have an individual label for the industrial product?

Thanks again,
Jennifer
